

An introduction to the ACCA Oxford Brookes University degree in **Applied Accounting**

12 June 2020, 09:00 - 13:00

Online Classroom Live

£195, inclusive of the BPP ebook

This introductory session will cover the content and requirements of the degree programme. It is designed to assist you in choosing a topic and provides helpful hints about the additional skills you will need to demonstrate in your project.

On completion of the nine fundamental papers of the ACCA qualification you have the option to enhance your qualifications. You could be awarded a Bachelor of Science degree from Oxford Brookes University on completion of a research and analysis project.

You are eligible for the degree as long as you are not exempt from papers FR, AA or FM.

To register, please complete and return the attached registration form (Guernsey / Jersey), or contact our Customer Services Team:

Jersey: 01534 711800 or email jerseyenquiries@bpp.com

Completing the Oxford Brookes course has provided me further insight into the real world of finance and how companies operate.

Unlike the standard examinations, it goes beyond fictional scenarios and makes you analyse a real company to draw conclusions. The skills gathered from this process are distinct and I have even incorporated these into my daily work routine.

Nathan Austin
Assistant Audit Manager
at KPMG Channel Islands Limited
