Those who follow our Achievement Ladder approach are 40% more likely to pass!

### Taught course

Taught Courses offer the perfect foundation on which to prepare for the exam. As well as guiding you through the key topics, you can make an early start on seeing how topics are examined, and how you should apply knowledge to real exam questions.

### Revision course

Revision Courses help you to focus on the skills and techniques to understand what the examiner is asking for, also:

How to spot the easy marks and further practical techniques to improve time management

The opportunity to practice questions with full support and feedback from the tutor

A full range of exam skills and techniques which include a comprehensive Practise and Revision Kit

### Exam Practice course

This allows you to rehearse for the big day by attempting an exam standard new mock exam. You can study either in London via a **Question Day** course or via the Online Classroom Live as a **Final Mock** course.

Question Day courses are available for Paper-Based Exams versions of the exams and Final Mock courses are available for both Computer-Based and Paper-Based versions. The courses give you the chance to:

Take and submit a mock written by our exam expert authors, and receive your marked exam with feedback from BPP markers

Attend either an online or face-to-face session with an expert tutor to understand knowledge gaps; how you can improve your technique and have a clear strategy for your final preparations

The Final Mock for Computer-Based Exams (PM-FM) is tailored to the CBE format allowing you to practise on our replica software that includes scratch pad, online calculator and formulae sheets.
